## EXPERIENCE

July 2023 - Ongoing

Part-Time

**Smart Contract Engineer**

**LoreumDAO**

LoreumDAO is a permission-less governance protocol for EVM chains

- Designed and implemented secure smart contracts using Solidity
- Conducted testing and auditing to identify and resolve vulnerabilities
- Collaborated with teams to stay updated on the project status

May 2023 - June 2023

Full-Time

**Technical Writer**

**DAO Times**

DAO Times is a news publication for DAO sector

- Researched and wrote articles on the latest developments in the decentralized finance (DeFi) and non-fungible token (NFT) industries
- Collaborated with editors to ensure articles were accurate, informative, and engaging for readers

## EDUCATION

July 2021 - NOW

**Bachelors of Computer Application**

**Chandigarh University, CUIDOL**

Chandigarh University is a private university located in Mohali, Punjab, India

- Completed coursework in data structures and algorithms and software engineering
- Participated in coding hackathons to develop practical skills and gain experience working in teams

## PROJECTS

**JB Token Dapp** - July 2023

**Project Link** : <https://github.com/jyotirmoydotdev/JBToken-Dapp>

**Project Demo** : <https://jyotirmoydotdev.github.io/JBToken-Dapp/>

JBToken-Dapp is a Dapp that uses Ethereum blockchain to generate, distribute, and transfer tokens.

**Ethereum Reader** - June 2023

**Project Link** : <https://github.com/jyotirmoydotdev/ethereum-reader>

**Project Demo** : <http://ethereum-reader.web.app/>

Ethereum Reader provides a user-friendly website to track Ethereum mainnet blocks and transactions. It also includes a DAO section with news, tools, and active DAOs.

**Buy Me a Cold Coffee Dapp** - June 2023

**Project Link** : <https://github.com/jyotirmoydotdev/Buy-Me-a-Cold-Coffee-Dapp>

**Project Demo** : <https://buy-me-a-cold-coffee-dapp.vercel.app/>

A decentralised version of "Buy Me a Coffee" using React, Solidity, Thirdweb, and Foundry. Enabled direct cryptocurrency contributions to content creators with a user-friendly interface.

## SKILLS

Go

C++

Solidity

Foundry

React

TailwindCss
